PRESS RELEASE

The Long-term Infrastructure Investors Association convenes key industry figures in Frankfurt for its Third Annual Meeting

FRANKFURT – October, 20, 2016 – Following annual meetings in Paris and Washington D.C., the Long Term Infrastructure Investors Association held its Third Annual Meeting in Frankfurt on October 19-20, 2016. The Meeting brought together C-level delegates from leading infrastructure investors in Europe, North America and Asia Pacific as well as senior officers from regulators, governmental and multilateral agencies.

EDHEC*infra* presented the first outputs from LTIIA-sponsored research Chair on infrastructure benchmarking, attesting through data series lower risk profile of long-term infrastructure investments. The first release of ESG Indicators Library was announced, that LTIIA members built together with eFront, the leading provider of software solutions for alternative asset classes. LTIIA's Climate Task Force presented its progress with four participating governments on developing carbon reducing investments in the context of Paris Treaty.

Peter Ramsauer, Member of Bundestag and Former German Federal Minister for Infrastructure and Gabriel Bernardino, Chairman of the European Insurance and Occupational Pensions Authority delivered keynote addresses. More than fifty organizations from around the world joined the event.

Thierry Déau, LTIIA Chairman and CEO of Meridiam said: *“Both our growing base of members and the developments of benchmarking efforts are helpful in our ongoing dialogue with public institutions and the emergence of infrastructure as an asset class. The outputs from the research Chair on infrastructure benchmarking in particular will help bridge the knowledge gap which has often fed the infrastructure investment gap.”*

About Long Term Infrastructure Investors Association (LTIIA)

Founded in 2014, LTIIA gathers investors that collectively manage in excess of 5 trillion dollars of assets and that include some of the most active investors globally in the field of long term investment in infrastructure. The Association's three key priorities at the core of its action: (i) proactive engagement with public stakeholders to support attractive investment frameworks, (ii) development of financial performance benchmarks, and (iii) definition and sharing of best practices in relation to Environmental, Social and Governance issues. Visit www.ltiaa.org for more information.
